Reuven Brenner, Gabrielle A. Brenner, and Aaron Brown  
have written several books in praise of gambling. In this  
book, they draw insights from sociological theories of  
gambling and propose a risk-taking model of expected  
utility. They use it to disentangle the relationship between  
fortune and providence, democracy and autocracy, chance  
and mobility. It is a tall order, but they succeed  
admirably." - Nikolaos Zahariadis, Perspectives on Politics
