[Governance in the Twenty-First-Century University ...](#)
Explores approaches to effective leadership and strategic management in the twenty-first-century university that recognize and respond to the perceptions and attitudes of university leaders toward institutional structures. It examines the differences between treating universities as businesses and managing universities in a businesslike manner, what kinds of leadership will best address challenges, and how to gain consensus among constituents that change is needed. From historical background

[Governance in the Twenty-First-Century University ...](#)
University governance refers to the structure and process of authoritative decision making across issues that are significant for external and internal stakeholders within a university. A number of fundamental challenges to effective governance occur within the typical university environment, including too many constituencies, conflicting agendas, differing philosophies, traditions, and differences.
