Recognising that human lives are inherently vulnerable, Inhuman Nature also suggests that there is a vast reservoir of experience "inscribed in communities, bodies, landscapes, stories and objects" that is to do with making it through the variability of earth processes. As well as conversing with the earth and life sciences, the book taps into some recent themes in social theory and philosophy

Throughout Inhuman Nature Clark's watchwords are asymmetry and indifference. The first refers to the balance of power in the nexus of human environment relations. Clark consistently highlights the Earth's capacity to exceed our most elaborate designs and our greatest works of social and physical engineering. For him, the well-known idea of
