Oil in the Ether: A Critical History of Spectrum Auctions ...
As Gordon Gow and Richard Smith (2006) observe, the radio spectrum is a resource that supports a high stakes game of technology, industry, money and power. Over the past century this has always been true, but today it is more so than ever before (p. 5). According to a 2011 report from the ITU, global mobile-broadband subscriptions have grown 45% annually over the past four years
