The Bioarchaeology of Tuberculosis

Tuberculosis has plagued humans and animals for thousands of years. Though apparently in decline with the advent of effective chemotherapy and improved living conditions, sanitation, and diet during the first half of the 20th century, TB has reawakened in both developed and developing countries, particularly among susceptible populations with immunodeficiency disorders.

Jane E. Buikstra - Wikipedia

Jane Ellen Buikstra (born 1945) is an American anthropologist and bioarchaeologist. Her 1977 article on the biological dimensions of archaeology coined and defined the field of bioarchaeology in the US as the application of biological anthropological methods to the study of archaeological problems. Buikstra's current research focuses on an

Charlotte Roberts - Wikipedia
