The Ethics of Territorial Borders develops a distinctive line of argument, drawing on political theory and geography as well as international relations. Unusually, this book argues for the ethical significance of borders themselves, pointing to their role in human diversity and the enduring appeal of territorial division.

Territorial Borders, International Ethics and Geography ...

The article surveys and summarises recent literature in political geography and normative international relations theory to highlight how territorial borders are increasingly regarded as social phenomena, rather than material facts, and how this opens them to ethical and normative critique. The article suggests this is a line of enquiry that
