Tibetan Buddhism and Modern Physics: Toward a Union of Love and Knowledge addresses the complex issues of dialogue and collaboration between Buddhism and science, revealing connections and differences between the two. While assuming no technical background in Buddhism or physics, this book strongly responds to the Dalai Lama's heartfelt plea for genuine collaboration between science

Vic Mansfield was one of the most influential professors I had. He was brilliant and also respectful of students, somewhat back in the day. The material from his course Jungian Psychology and Modern Physical Concepts stays with me to this day. My work for Students for a Free Tibet would not be happening without me having met him.
